AMENDMENT AFTER FINAL REJECTION UNDER 37 CFR 1.116

Responsive to the Final Office Action, dated December 4, 2002, please amend the application as follows.

IN THE CLAIMS

Please amend the claims to read as follows:

1. (Amended) A real time video system for outputting to a screen signals for displaying color images that are adjusted for color blindness from original color images encoded in a real time video signal, the video system comprising:

a decoder for decoding the video signal into at least one original color signal associated with a color of the original image;

a compensation processor coupled with the decoder for receiving the original color signal, the compensation processor including a plurality of separate color point remappings that are non-modifiable by a user of the video system, the compensation processor structured to remap the original color signal into one or more color blind compensated signals by
